3. Two paragraphs were the subject of differences between SFRC and CIA. One paragraph (re Cuba, page 430, attached) was satisfactorily resolved. The second paragraph [] (attached) is subject to further clarification by CIA as to reasons why short deletion should not stand, as opposed to longer deletion which was first requested by State and then State agreed to shorter deletion, subject to CIA review. [] will discuss this with DDO/IMS Reviewing Official, [] and then respond to OLL. OLL should then send letter in writing on our position re this paragraph.
